Cloverleaf Integration Engineer -Greater Chicago Area

Job Description

Plans, develops and monitors integration programs and interface activities. Maintains and supports interfaces and related application upgrades. Supports and maintains both vendor and in-house developed applications. Applies vendor supplied "packages" to fill applications' needs. New program development as required. Adheres to departmental and standards and guidelines.

This is a full-time position for a person that lives in the Chicagoland area or is willing to relocate at their own expense.

Desired Skills & Experience

Minimum Qualifications:

- 5 years of application support, programming and implementation experience
- Training in structured programming and data retrieval methods
- Training in integration and interface engine technology
- Knowledgeable in all aspects of information systems
- Experience in HL7 interface development across multiple applications and platforms
- Excellent project planning and project management skills
- Aptitude to dynamically multi-task and prioritize numerous issues in a high pressure environment
- Excellent communication and interpersonal skills with the ability to interact appropriately in stressful situations
- Customer focused, highly motivated, team player approach
- Strong attention to detail

Preferred Qualifications:

- Cloverleaf experience
- Experience with Epic or other Electronic Medical Record (EMR) system
- Experience with health care information systems
- Required Education: High School graduate or equivalent. Bachelor's Degree or equivalent experience.
- Preferred Education: Bachelor's Degree
- Preferred Certifications: HL7 Interfaces, Level II
